Dear Gloria,

I hope you are very well. I wanted to bring to your attention the attached lawsuit filed by McKesson Corporation against my father as defendant, which came to my attention within the past hour or so.

While I am not a named defendant, my name is invoked numerous time in scurrilous and specious contexts.

I believe assertions regarding EPA as contained in this suit are likewise dubious and unfounded.

It is likely that EPA staff would be called upon for testimony if this action goes to court; for that reason, I wanted to bring it directly to your attention, as you have been so often courteous and considerate towards me in my quest to have the truth and best outcome realized for Arkwood.

Sincerely,

Curt
